## Packaging and Shipping Logistics of the Recycle Product to HP

This promotion is open to the 50 United States only. The Participant must purchase the HP Product(s) and ship their Recycle Product(s) within the boundaries of the 50 United States.

The Participant is responsible for the de-installation of the Recycle Product(s) and must properly prepare the Recycle Product(s) for shipment. The cost for shipping and recycling, if applicable, of any conforming Recycle Product(s) that are shipped to HP in accordance with these Terms and Conditions of this Program will be borne by HP. HP reserves the right to charge the Participant for any transportation costs it incurs in connection with the delivery of any nonconforming products under this Program or for Participant's failure to comply with the Program Terms and Conditions.

To avoid damages and /or delays during transportation and processing of the Recycle Product(s), the Participant must adhere to the instructions below:

The Recycle Product(s) must be packed in sturdy cardboard boxes suitable for shipping.

If ink and/or toner cartridges are included with any Recycle Products, they must be removed from printer(s) and must be packed separately in an appropriate container protecting against potential leakage. This container may then be packed in the same box as the Recycle Products.

The shipping label provided by HP must be attached to the outside of the box and should remain easily accessible at all times. It is possible that a pickup will be scheduled for multiple printers in lieu of individual shipping labels. Palletizing requirements will be based on size, weight and number of units at location.

The shipping label should be secured with transparent shipping tape to prevent separation.

# Terms & Conditions

Recycle Product(s) received without the shipping label attached may not be properly processed.

HP is not responsible for paying for proper packaging of the Recycle Product(s).

The Recycle Product must be shipped within thirty (30) days of receiving the shipping label or by December 31, 2022, whichever occurs sooner.

It is very important to properly package your printer following these packing instructions:

- | Package the item(s) in a sturdy cardboard box designed specifically for shipping.
- | Shipping tape that is 2-3 inches wide should be used. We do not recommend using masking or cellophane tape. Tape all edges on the sides, top and bottom to make sure there are no rough edges that could be snagged by automated mail processing equipment.
- | Attach the prepaid shipping label to the outside of the package. Use a piece of clear shipping tape over the top of the label. It is important to use our shipping label, as it will be used to expedite tracking, identification and increase the speed of your shipment.

## Transfer of Ownership and Risk of Product Loss

Ownership and risk of loss of the Recycle Product will be transferred to HP upon acceptance of the Recycle Product at the HP designated processing center. The delivery of the Recycle Product to HP's designated processing center shall be final and effective to transfer title of such product to HP or HP's designated service provider free and clear of all liens and encumbrances.

## Non-return of Recycled Product(s)

Recycle Products must be shipped to HP to qualify. Once collected by HP, no Recycle Product (including accessories) can be returned to the Participant. All accepted Recycle Products remain the property of HP.

## Non-Compliance with the Program Terms

The Recycle Product(s) must match the details provided during the registration. All Recycle Products are subject to inspection and acceptance by HP upon receipt.

## Recycling of Recycle Products

HP will arrange for the recycling of any Recycle Products received under this Program in compliance with applicable laws, in its sole discretion.
